

Dashboard Filters

The dashboard should support the following filters across all sections:

Time Filters

- Year-wise
- Quarter-wise
- Half-Yearly
- Monthly
- Custom Date Range

Organizational Filters

- Region
 - Location
 - Business Unit
 - Department
 - Project
 - Practice
 - Employee Grade
 - Individual Employee
-

Section 1: Executive Summary Dashboard

This section should provide leadership with a quick overview of the organization's learning performance.

Key Metrics

Learning Reach

- Total Employees
- Employees Nominated
- Employees Trained
- Learning Coverage %

Formula: Learning Coverage % = Employees Trained / Total Employees × 100

Learning Delivery

- Total Sessions Conducted
- Total Attendees
- Total Nominations
- Total Learning Hours
- Average Hours per Session

Certification Summary

- Total Certifications Completed
- Certification Growth %

AI Readiness Summary

- Employees Trained in AI
- AI Certifications Achieved
- AI Learning Hours

Training Effectiveness

- Average Feedback Rating
 - Training Satisfaction Score
 - Recommendation %
-

Section 2: Learning Coverage & Participation

This section should answer:

“How effectively are we reaching employees across the organization?”

Metrics

- Learning Coverage by Region
- Learning Coverage by Location
- Learning Coverage by Project
- Learning Coverage by Business Unit
- Learning Coverage by Employee Grade

Visualizations

- Coverage Heatmap
 - Region-wise Coverage Chart
 - Project-wise Participation Chart
 - Quarterly Participation Trend
-

Section 3: Learning Hours Analytics

This section should provide visibility into employee learning investment.

Metrics

Organization Level

- Total Learning Hours
- Average Learning Hours per Employee

Learner Level

- Average Learning Hours per Active Learner

Region Level

- Average Learning Hours by Region

Project Level

- Average Learning Hours by Project

Employee Level

- Individual Learning Hours
- Individual Learning Progress

Additional Insights

- Top 10 Learning-Focused Projects
 - Top 10 Learning-Focused Regions
 - Top 10 Active Learners
-

Section 4: Training Categories / Learning Pillars

Training data should be organized into strategic learning pillars.

Pillar 1: Compliance Learning

Examples:

- POSH
- PISMS
- Security Awareness
- Mandatory Compliance Programs

Pillar 2: Technical Learning

Examples:

- Databricks
- Cloud
- Data Engineering
- Development Technologies

Pillar 3: AI & GenAI Learning

Examples:

- Kiro
- Claude
- Copilot
- GenAI Learning Paths

- Prompt Engineering
- AI Workshops

Pillar 4: Leadership Development

Examples:

- YMP
- Managerial Programs
- People Management Programs

Pillar 5: Upskilling & Cross-Skilling

Examples:

- Solution Architect Programs
- Tech Lead Development Programs
- Career Transition Programs

Pillar 6: Certifications

All external and internal certifications

Pillar 7: Flagship Programs

Organization-wide strategic learning initiatives

Section 5: AI Transformation Dashboard

This should be a dedicated dashboard section.

AI Readiness Index

Core Metrics

- Employees Trained on AI
- Employees Certified on AI
- AI Learning Hours
- AI Sessions Conducted
- AI Training Attendance %

Advanced Metrics

AI Adoption Funnel

Registered → Attended → Completed Learning → Certified → Using AI Tools

AI Tools Adoption

- Copilot Users

- Kiro Users
- Claude Users
- Other AI Platform Users

AI Champions

- AI Power Users
- AI Mentors
- AI Ambassadors

AI Capability Heatmap

Display AI readiness by:

- Region
- Department
- Project
- Practice

AI Maturity Score

A score combining:

- Training Completion
 - Certification Achievement
 - Tool Adoption
 - AI Learning Hours
-

Section 6: Certification Dashboard

This section should track certification lifecycle.

Certification Funnel

Assigned → Enrolled → Started → Completed → Submitted → Approved in Zoho

Certification Metrics

- Total Certifications
- Certifications by Technology
- Certifications by Region
- Certifications by Project
- Certifications by Employee Grade

High Demand Certifications

Examples:

- Databricks

- AWS
 - Azure
 - GCP
 - Snowflake
 - PMP
-

Section 7: Flagship Program Dashboard

Separate tracking for strategic programs.

Programs

- YMP
- Quantum Shift
- Tech AI Thon
- Databricks Program
- GCV Certification Program
- Kiro Learning Initiative
- Copilot Learning Initiative

Metrics

- Participants
 - Completion %
 - Learning Hours
 - Feedback Score
 - Certifications Achieved
-

Section 8: Learning Trends Dashboard

Track learning growth over time.

Metrics

- Sessions Conducted
- Employees Trained
- Learning Hours
- Certifications Achieved
- AI Learning Growth

Trend Views

- Month-over-Month
- Quarter-over-Quarter

- Year-over-Year

Growth Indicators

- Training Growth %
 - Learner Growth %
 - Certification Growth %
 - AI Adoption Growth %
-

Section 9: Training Effectiveness Dashboard

Measure training quality and impact.

Metrics

- Feedback Score
- Trainer Rating
- Session Rating
- Recommendation %
- Attendance %
- Completion %

Insights

- Best Rated Trainings
 - Best Rated Trainers
 - Most Impactful Programs
-

Section 10: Learning Champions Dashboard

Recognize high-performing learners.

Top Learners

Based on:

- Learning Hours
- Certifications
- AI Learning
- Training Participation

Recognition Categories

- Top Learner of the Quarter
- Top AI Learner
- Top Certified Employee

- Learning Champion
-

Section 11: Project Learning Investment Dashboard

Show learning investment across projects.

Metrics

- Employees Trained
- Learning Hours
- Certifications
- AI Readiness Score
- Training Coverage %

Objective

Enable leadership to understand which projects are investing in learning and capability building.

Section 12: Fresher / Apprentice Journey Dashboard

Track fresher development lifecycle.

Journey Funnel

Campus Hiring → Training Enrollment → Training Completion → Certification Completion
→ Project Allocation → Billable Deployment

Metrics

- Freshers Hired
 - Training Completion %
 - Certification Completion %
 - Deployment %
 - Time to Deployment
-

Future Enhancements

Skill Gap Dashboard

- Current Skills vs Required Skills
- Skill Gap by Project
- Skill Gap by Practice

Learning Recommendation Engine

- Suggested Courses
- Suggested Certifications
- Suggested Career Path Learning

Predictive Analytics

- Certification Completion Prediction
 - Learning Risk Indicators
 - AI Readiness Forecast
-

Success Criteria

The dashboard should enable leadership to answer:

1. How many employees are being developed?
2. How much learning investment is happening?
3. Which learning initiatives are delivering impact?
4. How prepared is the organization for AI transformation?
5. Which projects and regions are actively investing in learning?
6. What is the overall effectiveness of L&D initiatives?
7. What business value is being generated through learning programs?
